

Why Filter Drugs?

**FILTERING KEEPS CRAP AND GERMS
OUT OF YOUR SHOT**

FILTERING SAVES YOUR VEINS

FILTERS DON'T STEAL YOUR DRUGS!

Which Filter?

**BACTERIA CAN GROW IN FILTERS - USE THEM ONCE AND
THROW THEM OUT**

**YOU CANNOT FILTER OUT A VIRUS LIKE HEP B, HEP C, HIV
BUT YOU CAN FILTER OUT BACTERIA THAT MAY CAUSE
DIRTY SHOTS OR ABSCESSES**

1. POWDER - ROCK - CRYSTALS

**USE A SMALL ROLLED / SNIPPED PIECE
OF COTTON / HEMP LIKE A:**

COTTON BALL TAMPON
COTTON BUD OR A STERIFILT

2. PILLS

**FIRST FILTER WITH COTTON, AND THEN
WITH A RED PARTICLE WHEEL FILTER
TO REMOVE IMPURITIES. AFTER THAT,
USE A BLUE BACTERIAL WHEEL FILTER.**

3. LIQUIDS - PATCHES - FILM - MDMA/E PILLS - HOMEBAKE - LIQUID LEFT TO STAND IN A FIT

**USE A BACTERIAL WHEEL FILTER TO GET
RID OF THE GERMS (THESE FILTERS ARE
USUALLY BLUE)**
